

# Testhub Sdn. Bhd.

*One Stop Solution For Semiconductor IC Testing*

*- Solutions Guaranteed*

Reg. No. 27Q14088

**Testhub Sdn. Bhd.** is an ISO9001 certified company, and was awarded as the Most Innovative SME company in Malaysia for the Engineering and Industrial design category by SME Corp in 2012. Testhub provides one stop TEST SOLUTIONS including test strategy, test hardware fabrication and software development, plus test methodologies training and product engineering support, to global semiconductor industries.

Based in Malacca, Malaysia, we have engineers located throughout the country to support global customers that have manufacturing activities (in house or subcontractor) in Malaysia, Europe and Asia region.

To support our growing business, we have the following job vacancies in our engineering team at our Melaka office.

## INTERNSHIP

- Structured basic engineering training will be provided during the internship period.
  - Test Engineer / PCB Design Engineer
- Test Engineer
  - Assist in basic troubleshooting of test failures (test program & hardware debug).
  - Support daily product testing activities and data collection.
  - Participate in test program setup, verification, and documentation.
  - Learn and practice the operation of ATE (Automated Test Equipment) systems under engineer supervision.
- PCB Design Engineer
  - Assist in schematic capture based on application test circuit.
  - Learn to use CAD system (Cadence/PADS/PROTEL) to develop multilayer PCB layouts.
  - Involve in component selection, placing, routing, bill of materials, assembly drawings, generate gerber data etc.

### **Requirements:**

- Candidate must be currently pursuing a Bachelor's Degree in:
  - Electronics Engineering / Electrical Engineering
- Basic understanding of electronic circuits and measurement equipment.
- Basic knowledge in programming (C/C++, Visual Basic).
- Enthusiastic in learning semiconductor IC testing and engineering problem-solving skills.
- Internship placement available for 3 to 6 months.
