

Testhub Sdn. Bhd.

One Stop Solution For Semiconductor IC Testing

- Solutions Guaranteed

Reg. No. 27Q14088

Testhub Sdn. Bhd. is an ISO9001 certified company, and was awarded as the Most Innovative SME company in Malaysia for the Engineering and Industrial design category by SME Corp in 2012. Testhub provides one stop TEST SOLUTIONS including test strategy, test hardware fabrication and software development, plus test methodologies training and product engineering support, to global semiconductor industries.

Based in Malacca, Malaysia, we have engineers located throughout the country to support global customers that have manufacturing activities (in house or subcontractor) in Malaysia, Europe and Asia region.

To support our growing business, we have the following job vacancies in our engineering team at our Melaka office.

TEST DEVELOPMENT ENGINEER

- Creation of the test specifications from the product specifications.
- Development of the overall test system solution for product testing.
- Test hardware and software design and development.
- To analyze and implement efficient, economical, and innovative test methodology that will improve test throughput, quality & yield.
- To debug test software and hardware to achieve correlation.

Requirements:

- Master's/Bachelor's degree in Electronics or Electrical Engineering.
- At least 2 to 3 years of industry experience, preferably in a ATE test development environment.
- Knowledgeable in the use of basic and advanced electronic test and measurement equipment.
- Proven skills in test software programming (Visual Basic/C++ preferred), test development, and/or test methodology development are highly desirable.
- Knowledge of ATE test programs. Experience with Eagle or Flex series test systems will be an added advantage.
- Able to learn quickly and adapt to the skill requirements of new and advancing ATE platforms, semiconductor devices, and test methodologies.
- Good communication skills and readiness to work cross-functionally.
- High degree of flexibility in work assignments and willing to travel when required.
- Fresh graduates are also encouraged to apply.
